

intellipur

CHANGE YOUR THINKING, NOT YOUR OIL.™

ABOUT THE INTELLI-PUR™

The Intelli-Pur™ was engineered and developed to continuously clean fluids operating in some of the toughest and dirtiest environments facing our industrial customers. Designed to effectively remove solid and liquid contaminants in gear lube, lubricating oil, and hydraulic fluid the Intelli-Pur is ready for the challenge. Our compact design and full service offering makes OPS and the Intelli-Pur™ the ideal solution for your toughest jobs and most remote locations.

KEY BENEFITS

- Increase equipment/rig uptime
- Reduce operating cost
- Unlimited water removal
- Increase equipment life
- Contaminate removal to 3 microns
- Increase maintenance awareness
- Electronic Monitoring
 - Monitor operating pressure
 - Monitor temperature
- Multiple Acquisition Options

Savings You Can Measure

Intelli-Pur™ Protective Enclosure

Intelli-Pur™ Electronics

PERFORMANCE SPECIFICATIONS

- Filter Contaminates down to 3 micron
- Automatic Operation
- Flow Rate of 12-15 Gallons/Hour
- Synthetic Micro Glass Media (SMM) has a tight and consistent fiber pattern which will trap and hold smaller particles. The SMM media also has excellent long term durability and will not degrade over extended periods.
- Unlimited Water Removal Capacity
- Safely Extend Oil Drain Intervals 1 year +
- Increase Equipment Life and Extend Maintenance Rebuild Intervals

STANDARD FEATURES

- Electronically Controlled Heating
- High Capacity High Efficiency SMM Spin-On Filters
- System Performance Monitoring Lights
- Filter Change Indicator Gauge
- Reinforced Steel Braided Crimped Fluid Lines
- Manifold Pressure & Differential Gauges
- Integral Fluid Sampling Valve
- Patented Evaporation Technology
- NEMA Rated Control Enclosure with Hour Meter

OPTIONAL EQUIPMENT & SERVICES

- Circulating Pump Assembly
- Fluid Pre-Heater
- Comprehensive Fluid Analysis Program
- Extended Maintenance Contracts
- Heavy Duty Protective Steel Enclosure
- Attractive Purchase/Lease Options

"In the oil and gas industry, it is extremely important to get in and out of a drilling location very quickly. The Intelli-Pur system allows us to basically eliminate oil changes to keep our equipment up and running almost constantly."

Tom Burke, president of
Felderhoff Brothers Drilling

TECHNOLOGIES FOR A GREENER FUTURE

OPS prides itself on being a green company and is committed to protecting the environment by providing high-quality "green" products, and technologies for a wide range of industrial and commercial applications. Our goal is to aggressively reduce consumption of petroleum and synthetic based lubricants and fluids.
